

Jambuy

Jambuy is a website in which users can create their own storefront, advertise, and sell their products to customers in a safe, streamlined, and convenient way for both the producer and the consumer.

Jambuy is a new and innovative platform which assists aspiring small business owners with starting their own business. This website will specialize in designing a user experience that is functional and accessible, developing a convenient experience for both the possible producer as well as the consumer, and focus on safety above all of any and all information stored. Our consumer-oriented approach to accessibility, safety, convenience, and development reflect what we truly believe at Jambuy; which is that consumer experience is above all and that everyone who uses our product should have an easy experience. The goals of our customers and the consumers align with ours and are a primary focus: delivering quality experience, always, and listening to the users and what they may need.

Jambuy buyer: Prospective buyer of products that are hosted on the Jambuy website.

Jambuy shop owner: Prospective shop owner who wants to sell their products after creating a storefront on the Jambuy website
